## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/29/2006 has been entered.

### ***Allowable Subject Matter***

2. Claims 58 and 59 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claim 58 is allowed because prior art fails to teach or make obvious a method of calibrating a radiation detection system comprising: measuring an energy-dependent modulation transfer function of the detection system, and measuring a level of radiation emitted from a source that is detected by the detection system, and calibrating the detection system by evaluating the detected radiation and balancing the system based upon the detected radiation and energy-dependent modulation transfer function of the detection system as claimed including all of the remaining limitations of the claim 58.

Claim 59 is allowed because prior art fails to teach or make obvious a method of estimating the effects of tissue attenuation on the intensity and energy distribution of an x-ray beam comprising: measuring a first position-dependent, energy –dependent intensity profile of the x-ray beam at the detector array, measuring a second position-dependent, energy-dependent intensity profile of the x-ray beam at the detector array immediately after the beam has been transmitted through a patient and comparing the first and second position-dependent, energy-dependent intensity profiles of the beam as claimed including all of the remaining limitations of the claim 59.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irakli Kiknadze whose telephone number is 571-272-2493. The examiner can normally be reached on 9:00-5:30.
